www.linkedin.com/in/sabin-sajeev-63211218a

Detail-oriented and results-driven Data Analyst with 1+ years of experience and expertise in Python, SQL, and Power BI. Proven ability to drive impactful data analysis and insights, particularly in the areas of fraud detection for banking transactions. Skilled in statistical modelling, data visualization using tools such as Power BI and Tableau, and database management. Adept at collaborating with cross-functional teams to deliver tailored solutions and enhance data-driven decision-making.

PROFESSIONAL EXPERIENCE

DATA ANALYST

TeamLease Services Limited

Bangalore, Karnataka

May 2025–Jul 2025

- Leveraged Python and SQL to analyze datasets and support data-driven business needs.
- Contributed to data management and visualization tasks alongside cross-functional teams.

DATA ANALYST

Tata Consultancy Services

Kochi, Kerala

Mar 2021–May 2022

- Leveraged Python for data preprocessing, cleaning, and analysis, ensuring efficient data pipelines.
- Collaborated with cross-functional teams to implement Python and SQL-based solutions tailored to business needs.
- Utilized Pandas and NumPy for in-depth data manipulation and statistical analysis.
- Implemented data visualization solutions using Matplotlib, Seaborn, Power BI, and Tableau.
- Executed complex SQL queries for data extraction and transformation.
- Developed and implemented Python scripts for automating repetitive data tasks, increasing overall efficiency.
- Conducted Python-based data exploration to uncover patterns and insights, informing strategic business decisions.
- Contributed to the development of dashboards using Python libraries (Matplotlib, Seaborn) for effective data visualization.
- Applied NumPy for numerical operations, enhancing data processing efficiency.
- Leveraged Pandas for in-depth data manipulation, transformation, and exploratory data analysis.

SKILLS

- Python (Pandas, NumPy)
- SQL
- Data Analysis
- Statistical Modelling
- Power BI
- Tableau
- Excel
- Database Management

EDUCATION

University of Kerala

Master of Science in Electronics | Percentage: 77 %

Trivandrum, Kerala

2020

University of Kerala

Bachelor of Science in Physics and Computer Application | Percentage: 83 %

Trivandrum, Kerala

2018

PROJECTS

CUSTOMER SEGMENTATION FOR E-COMMERCE

- Executed complex SQL queries for data extraction and transformation. - Implemented a customer segmentation project using Python, SQL, and machine learning techniques.
- Utilized customer transaction data to identify distinct segments based on purchasing behaviour and demographics.
- Improved targeted marketing strategies, resulting in a 10 % increase in conversion rates.

FRAUD DETECTION SYSTEM FOR BANKING TRANSACTIONS

- Developed a fraud detection system for banking transactions using Python, SQL, and Power BI.
- Executed advanced SQL queries to identify anomalous patterns in transaction data.
- Successfully reduced fraudulent transactions by 12 % through the implementation of machine learning models and real-time monitoring.
